# WARRIOR WINDOWS

#### **Warrior Fixed Window**

Unobtrusive in design, the Warrior Fixed Window system is designed to be an aesthetic way to protect your home against harsh Australian conditions. Made to measure, the Warrior range is your first and last line of defence in the event of a bushfire!

The Warrior Window range is available in fixed and operable options and is a fully compliant system as per **AS3959**. Our Warrior Windows are approved to provide 30 minutes of fire protection (-/30/-) and are designed and manufactured in Australia.

# **Warrior Operable Window**

The Warrior Operable window range consists of a winder and mesh system. The Warrior Window range is highly customisable, framing can be powder coated any colour in the Dulux Duralloy range to match clients tastes and building façade.

Full certification issued with installation of all Warrior products.

# **WARRIOR DOORS**

The Warrior range of bushfire doors is fully approved for fire ratings of -/30/- and has been full scale fire tested in strict accordance to AS1530.4.

Warrior Doors come in various sizes and ratings. Contact Us Now on 1300 665 471

# **Warrior Hinged Door**

The Warrior Hinged Door range is a high quality product which is customised to best cater towards client's needs. If required stainless steel framing can be provided for buildings within 5km of the ocean.

# **Warrior Sliding Door**

The Warrior Sliding Door is a fire rated sliding door system which offers ease of operation due to highly a engineered sliding system whilst providing more than adequate protection against bushfire scenarios.

# **WARRIOR SHUTTERS**

#### **Warrior Fire Shutter FZ**

Compact in design, the Warrior Fire Shutter FZ can be retrofit to suit new and existing buildings. The shutter is manually operated via a pulley system and is designed to suit smaller openings of up to 2.75m W x 2.5m H. For larger openings refer to the Warrior Fire Shutter FZ M.

### **Warrior Fire Shutter FZ M**

The Warrior Fire Shutter FZ M is a fully compliant system which is used to protect openings within bushfire prone areas. The Warrior Fire Shutter FZ M is designed to suit larger openings of up to 8m W x 3m H however, can also be used for small openings. This unit is motorised and can also be manually deployed via an electrical switch.

The Warrior Fire Shutter FZ range was designed and engineered as a neat solution to meet requirements of AS3959.4. The Warrior range is approved for at least 30 minutes fire protection (-/30/-). It is also made in Australia by a 100% owned and operated Australian company.

# Our Customer Service Life-cycle

# 1. Design

Backed by qualified engineers and experienced personnel, the level of design assistance and product support we provide sets the Warrior range apart as a leader in the bushfire protection sector.

# 2. Supply

We've worked hard to gain reputation for delivering superior quality solutions, something we achieve by selecting only the world leading and premium suppliers.

# 3. Install

Warrior Windows has a fully trained and approved installation network that allows us to maintain a standard of integrated system installation that equals the high quality of our products.

# 4. Maintain

The continued functionality of our products is extremely important to us, which is why we ensure we always have the capability, human resources and parts to maintain a range of systems.

# Your perfect home. Your perfect view. Your piece of mind.
